neuropsychological psychosocial foundations of neuro oncology provides an in depth review of common cognitive psychological and social manifestations that occur in patients with brain cancer and other neuro oncological issues chapters discuss primary cns tumors brain metastases leptomeningeal disease paraneoplastic disorders and many other topics effects of cns and systemic cancer treatment i e radiotherapy chemotherapy immunotherapy are also examined as wel as current practices for rehabilitation and targets for essential future interventions in vulnerable populations this book is fully illustrated with pathology photomicrographs ct and mri images tables and molecular pathway diagrams bringing neuropsychological and behavioral health trial knowledge from the bench to the bedside this volume is an essential reference for practicing neuro oncologists neuropsychologists nurses and others working in the field of neuro oncology discusses the neurocognitive implications of brain and systemic cancer treatments examines the foundations of neuropsychological testing and daily life implications including caregiver support covers the psychosocial implications of brain cancer psychotherapeutic interventions and cognitive rehabilitation

this book offers guidance for speech and language therapists and other professionals who are working in a criminal justice setting or who are interested to know more about this dynamic and rewarding client group the criminal justice system cjs includes police custody community services secure hospitals and prisons although each setting

has its differences there are overarching areas associated with speech language and communication needs slcn within the population who find themselves coming into contact with the cjs these needs are many and varied from social deprivation and developmental language disorder to head injury substance misuse and adhd the variety is both stimulating and challenging and this book provides the reader with a range of resources to use with such a complex client base key features include academic evidence about slcn in the cjs accessible visuals explaining the systems pathways resources to support assessment and intervention information to support individuals with a range of overlapping needs aimed primarily at speech and language therapists the book also includes useful content for students academics and professionals who wish to know more about slcn within the cjs as well as being full of useful infographics this book includes a vast appendix of online material that can be downloaded and printed for use in practice

there is very little discussion of socially just approaches to speech language pathology within other fields of clinically oriented practice social justice is a topic that has received a great deal of attention within the last few years pedagogy for addressing social justice has been developed in other disciplines the field of communication disorders has failed to move forward and do the same discussion of social justice is important given the current sociopolitical climate and landscape that clients carry out in their day to day functioning speech language pathologists slps have an opportunity to engage in practices that help address and alleviate some of the injustices that contribute to educational and health disparities experienced by communities of color they may do this through the development and application of a socially just orientation of culturally competent practice that fosters changes beyond the individual level adapting such a framework makes it possible for slps to effectively advocate for and foster equity and inclusion for the individuals and broader communities impacted by slp services critical perspectives on social

justice in speech language pathology addresses the socio political contexts of how the field of speech language pathology and service delivery can impact policy and debates related to social justice issues it explores social position factors and the experiences of marginalized communities to explore how speech language pathologists deliver services train and prepare students and carry out research in communities of color it covers topic areas including disproportionality in special education disability rights and ableism achievement and opportunity gaps health disparities and lgbtq rights with a focus on voice communication and gender diverse populations this book is essential for speech language pathologists administrators practitioners researchers academicians and students interested in how the slp profession and discipline can contribute to or develop efforts to help address injustices faced by black indigenous and people of color bipoc communities

acquired language disorders a case based approach fourth edition is a practical easy to follow and organized text for students and clinicians the authors present each case from a holistic perspective with practical applications to improve activities of daily living as well as a social interactive perspective to create a complete picture of each case when treating people with aphasia clinicians are encouraged to consider not only the language domains but also the cognitive domains of executive functions attention memory and visuospatial skills information in the text links the assessment process to treatment goals that is guided by the aphasia framework for outcome measurement a from model built to augment the international classification of functioning disability and health icf model from the world health organization who this edition begins with fundamental information about brain behavior relationships and pertinent medical terminology for assessing and treating individuals with a variety of acquired language disorders each disorder is then introduced in a case based format that includes a case scenario with their photo a functional analysis of the patient critical thinking learning activities a diagnostic profile the target model treatment

considerations application of the a from model for patients goals special features include test your knowledge sections based on patient scenarios along with an answer key a quick reference diagnostic chart for acquired language disorders and a functional communication connections worksheet for treatment planning purposes the text includes an assessment summary sheet for developing a diagnostic profile in addition to step by step procedures on administering more than 25 treatment programs new to the fourth edition a new co author ryan husak phd ccc slp additional case study of an individual with dementia who resides in a nursing home a quick reference table summarizing screening tools and diagnostic measures for evaluating linguistic and cognitive domains expanded and updated evidence based assessments and treatments for acquired language disorders new content on the social determinants of health augmenting the icf model discussion of the rapidly developing field of telerehabilitation and technology based interventions

discourse analysis in adults with and without communication disorders a resource for clinicians and researchers provides state of the art information about discourse analysis with sections on aging aphasia cognitive communication disorders and neurodegenerative diseases the three renowned editors are actively engaged in the area of discourse expert clinical researchers introduce and organize each section and chapters are authored by leaders involved in discourse research worldwide discourse is considered the most natural unit of language effective production of discourse requires complex interactions among linguistic cognitive and social abilities that are sensitive to even mild disruption in any one of these elements this book covers the examination of discourse in adults with acquired communication disorders including selecting elicitation tasks streamlining transcription processes expanding analysis methods and translating findings for treatment application key features provides a global perspective on discourse assessment for clinicians dedicated chapters on aging aphasia traumatic brain injury right hemisphere

disorder primary progressive aphasia alzheimer s dementia parkinson s disease and amyotrophic lateral sclerosis
